

BUSH & FRICTION BRIDGES

Friction bridge

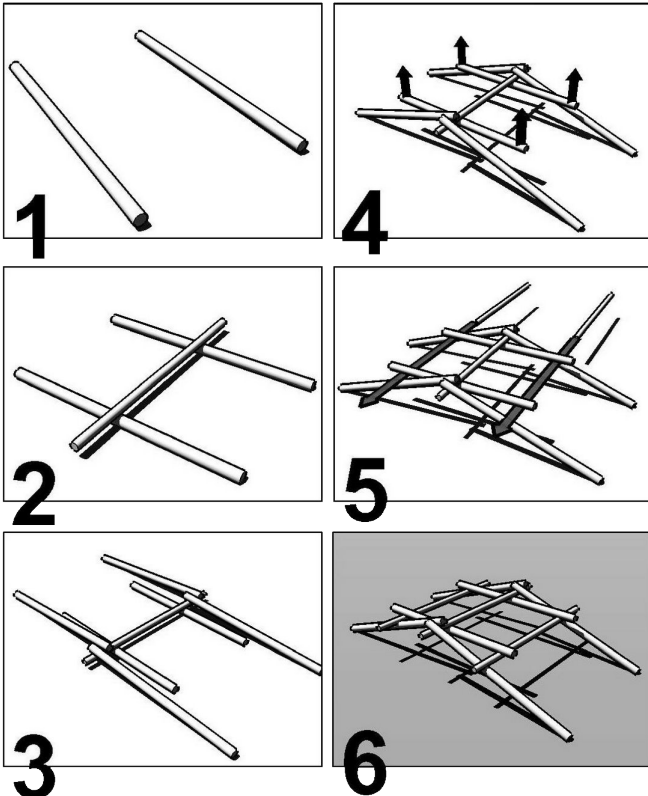

Equipment:

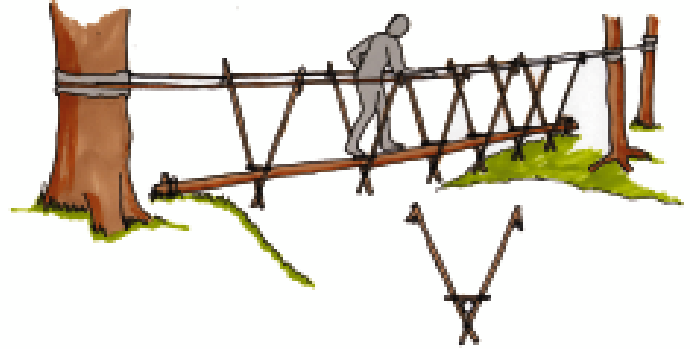

Spars:

4 x 3m spars
4 x 2m spars
2 x 5m spares

No lashings are used in its construction
you rely rather on the friction and tension
of each log in the bridge to hold the
structure together

The Bush Bridge

Equipment:

Ropes:

One 5cm diameter hawser at least
twice the width of the span

Spars:

15 to 20 light poles or 20 forked sticks
10 or so short 1m poles
Oddments
1 rope ladder more than the width of the span
Sacking
Maul
15-20 tent pegs unless forked sticks are used
Cord or sisal for lashing tent pegs to poles
Lashings
30 light lashings (3 for each support)
